6th INDIA GREEN ENERGY AWARDS

The India Green Energy Awards, an initiative of the Indian Federation of Green Energy (IFGE), are instituted to recognize and celebrate the transformative role of green energy in building a sustainable future for humanity. As India advances its transition toward cleaner, more resilient, and low-carbon energy systems, the importance of strengthening responsible practices and robust frameworks across the green energy ecosystem has become paramount. Through these awards, IFGE seeks to foster a culture of accountability by consistently acknowledging innovation, leadership, and excellence across the green energy sector. The initiative encourages broad-based participation, inviting nominations not only from large corporations and project developers but also from small and medium enterprises that are driving meaningful change at the grassroots level. IFGE is pleased to announce the 6th Edition of India Green Energy Awards. The last date of submitting the nominations form is 31st March, 2026.

INDIAN FEDERATION OF GREEN ENERGY

As an industry-leading organization, the Indian Federation of Green Energy (IFGE) is committed to advancing green energy with a clear mission to promote sustainable energy solutions across all sectors of economic development. IFGE adopts a comprehensive and integrated approach to building a resilient and sustainable energy ecosystem by actively collaborating with stakeholders at every level across industries, states, and the nation. Our efforts focus on driving innovation, strengthening policy advocacy, and enabling practical, scalable solutions that accelerate the transition to clean energy, contributing to a greener and more sustainable future.
